

TRAILS TO ALASKA OPEN; PHOTOGRAPHED

NEW YORK, Sept. 9.—Military and civilian aeronautical experts declare that the completion recently of the trip of four American army aviators from New York to Nome, Alaska, was as epochal in its military and commercial importance as the first flight across the English channel, since it opens Alaska to the new project of a trans-Alaska route.

Reports state that the Alaskans are determined to bring about regular communication through the air. The new project is the trans-Alaska route, which is being photographed and charted.

As the result of the flight, it is said, an aerial route has been photographed and charted, and the route is now open to the public. The air board states that the following has been accomplished by the flight:

- 1. An effective aerial route to the northwest corner of the American continent and Asia has been established.
- 2. The route across the Eastern states has been proved and it has been learned that flying is safe over territory where transport by railroad, automobile and wagon is considered extremely dangerous.
- 3. Necessity of landing fields and service supply stations throughout the United States and its territories has been shown.
- 4. The expedition suited innumerable landing places, and it has been learned that flying is safe over territory where transport by railroad, automobile and wagon is considered extremely dangerous.
- 5. Many glaciers sighted.
- 6. The report of Captain St. Clair Street, who was in command of the expedition, states that the Byers considered the route across the Eastern states as having few landing fields and not ideal in any instance. The Middle West and Canada, he said, as far as Edmonton, was ideal.
- 7. The expedition suited innumerable landing places, and it has been learned that flying is safe over territory where transport by railroad, automobile and wagon is considered extremely dangerous.
- 8. Many glaciers sighted.
- 9. The report of Captain St. Clair Street, who was in command of the expedition, states that the Byers considered the route across the Eastern states as having few landing fields and not ideal in any instance. The Middle West and Canada, he said, as far as Edmonton, was ideal.
- 10. The expedition suited innumerable landing places, and it has been learned that flying is safe over territory where transport by railroad, automobile and wagon is considered extremely dangerous.
- 11. Many glaciers sighted.
- 12. The report of Captain St. Clair Street, who was in command of the expedition, states that the Byers considered the route across the Eastern states as having few landing fields and not ideal in any instance. The Middle West and Canada, he said, as far as Edmonton, was ideal.
- 13. The expedition suited innumerable landing places, and it has been learned that flying is safe over territory where transport by railroad, automobile and wagon is considered extremely dangerous.
- 14. Many glaciers sighted.
- 15. The report of Captain St. Clair Street, who was in command of the expedition, states that the Byers considered the route across the Eastern states as having few landing fields and not ideal in any instance. The Middle West and Canada, he said, as far as Edmonton, was ideal.
- 16. The expedition suited innumerable landing places, and it has been learned that flying is safe over territory where transport by railroad, automobile and wagon is considered extremely dangerous.
- 17. Many glaciers sighted.
- 18. The report of Captain St. Clair Street, who was in command of the expedition, states that the Byers considered the route across the Eastern states as having few landing fields and not ideal in any instance. The Middle West and Canada, he said, as far as Edmonton, was ideal.
- 19. The expedition suited innumerable landing places, and it has been learned that flying is safe over territory where transport by railroad, automobile and wagon is considered extremely dangerous.
- 20. Many glaciers sighted.

Sons and Daughters of West Celebrate Birthday of State

(Continued from Page One)

should not forget the generations which have gone before. Rememberance and gratitude are attributes of the heart. It does not reflect favorably upon our fine sense of appreciation of glorious deeds that the bones of Juan Fernandez, "Cabrillo" remains within our state in a forgotten grave and no memorial to mark the spot?

STATE UNCOVERED IN 1542 BY CARRILLO.

"Cabrillo was a Portuguese navigator in the service of Spain, just as Columbus was an Italian in the service of the same nation, when it was the conquering power upon the seas. Carrillo died and was buried on the island of San Miguel, in the Santa Barbara channel, after he had discovered California in 1542, and no thought was given to him by the men and women who profited by his skill as a navigator and courage as a man. Two cities claimed the bones of "Christopher" Columbus—Seville, where he died, and Santa Domingo, where he founded his capital in the Western world. Monuments in both places proclaim a people's gratitude and a sailor's glory. Are not California's proud of the discovery of California? In Statuary Hall, under the dome of the Capitol at Washington, each state is entitled to place their sculptured memorial to two of its departed sons. A traveler looks in vain for California's tribute to her distinguished son, because there had been many. Why should not this omission be repaired?"

AT NIPPOLO MIRA AND PHOENIX, AS ALEXANDER.

Many names suggest themselves in the era of discovery—Cabrillo and Juan Pantoja. Carrillo, when urged by Don Gaspar Portola, the military commander, to turn back from California, after his failure to locate the port of Monterey, which had been discovered by Viscaño twenty years before the landing of the Mayflower, answered him: "When Portola said there were not enough supplies to make the port, and that the relief ship sent from Mexico had evidently been lost at sea, Carrillo asked for one day's grace, which he had dedicated to prayer, when he: the ship appeared upon the horizon, a fact which reassured Portola and led directly to the founding of the missions and the discovery of San Francisco bay."

"This same Juan Pantoja, an evangelist, the native Indians, taught them useful arts and prepared the land for the coming of the white man. He lies buried in the Carmel Mission, not far from Monterey. The chain of 21 missions, one day's journey apart, was a golden circle of California's hospitality and for traditional and even more material reasons they should be more zealously preserved."

OVERCOME EXHAUSTION—Horsehead's Act. Photographs a wilderness trail for brain, nerve and body. At Douglas, Ariz.

Capitol in Washington, where his son sat a respected member of the United States Senate from the State of California. We are sufficiently remote from these events to pronounce an unbiased judgment and overlook the blemishes which may, on close scrutiny, be found in the lives of such men, for instance as Fremont and Mesquias as representing an epoch in California when the State was won in the field by courage and imagination in the council by wisdom.

It is submitted that great historical figures be discussed by the Native Sons and Daughters and by the Pioneers, and an indication made as to who are the best of the best. California in Statuary Hall. Let not the absence of such effigies bespeak our indifference nor indicate the poverty of great names.

Lighter amusement succeeded the oration, the O'Neill sisters diverting the gathering with a miniature fashion show and revue. James F. Hays, President of the Native Sons, was the concluding speaker and after singing "The Battle Hymn of the Republic," the audience concluded the afternoon by singing "The Star-Spangled Banner."

When the auditorium again emptied, the men set at once to transform it into a ballroom for the evening. The evening, while most of the celebrants visited open-house receptions at parlor homes.

Tonight's ball will be open to the public. In the grand march, beside Mayor and Mrs. Kolb will be officials of the Native Sons and Daughters. Thousands of guests are expected.

The floor and reception committee for the ball is composed of Louis Erb, chairman; William H. James, Charles A. Koenig, Mrs. Mary E. Bell, Mrs. May Barry and Mrs. Helen Mann.

The general Admission day committee is made up of James Ralph, chairman; Clarence W. Morris, Mrs. Mary E. Bell, John T. Regan, Mrs. May Barry, James E. Hays, H. H. Hall, Mrs. H. H. Hall, Mrs. A. Van Der Zwijs, George T. Barry, Dr. F. J. Gonzalez, Nicholas J. P. Meinert, Judge James C. Conlan, M. J. McGovern, John A. Mitchell, Henry Dahl, James Foley, Hubert B. Scudder, William White, William D. Hynes, J. Emmet Hayden, Ralph McLean.

Violence Renewed In Brooklyn Strike

NEW YORK, Sept. 9.—Simultaneous with efforts of Receiver Lindley M. Garrison to organize an efficient force to replace Brooklyn Rapid Transit strikers, violence broke out again today in Brooklyn.

Early this morning fire was discovered in a string of elevated cars at Coney Island. A fire alarm was turned in by a patrolman but damage estimated at \$25,000 was done before the blaze was extinguished. Strikers who tried to move adjoining cars out of reach of the fire were unable to do so because the switches had been tampered with.

Six explosions are said to have been heard, resulting, the police said, from cans of gunpowder placed in the cars.

A trolley wire 500 feet long was destroyed when a gas pipe was run from it to a rad creating a short circuit and burning out the wire.

Autos Were His Fear; He Is Killed in One

SAN FRANCISCO, Sept. 9.—Obsessed of a dread of automobiles, as his wife, an invalid tells, it fell to J. D. Damonte, 67, a retired Boston business man, to be killed in one. Riding with Fred Felander when the driver, police say, was intoxicated, he was crushed as the machine swerved a truck drawn to a curb. The whole side of the machine was bent in by the collision, which occurred at Fell and Laguna streets. Both men lived at the Hotel Essex, 624 Ellis street. Felander is manager of the Kawneer Manufacturing company. He was arrested. Damonte was dead when he reached the emergency hospital.

THEY ALL LEAVE SPAIN; MADRID IS SHOCKED AT IT

MADRID, Sept. 9.—Announcement that further large numbers of persons are emigrating from the big cities of Spain is causing comment in the newspapers of Madrid, which argue that the country is being impoverished by the constant drain on its better elements. Statistics for the first months of 1929 show that 57,000 more persons emigrated than during the same period of last year. Five thousand went to the United States.

Piedmont Firemen Install Wireless

PIEDMONT, Sept. 9.—Firemen have installed in the city hall a small wireless receiving apparatus which has been secured through a subscription fund raised among the men in the department. Fireman R. J. Getz is a former wireless operator and has undertaken to teach other firemen. The first message was received from a coastwise vessel Sunday night shortly after the apparatus was hooked up. Since then the firemen have been receiving the Mars Island time messages every day and several messages from vessels and the naval station at the Farallon islands each night.

Woman Is Beaten to Death By Robbers

ST. LOUIS, Mo., Sept. 9.—Apparently beaten to death by robbers, the body of Mrs. Julia Berg, about 49 years old, was found at the Park Lane bridge, in the northwestern suburbs this afternoon. Her empty purse was found some distance away.

Editor-Soldier Row Goes to Governor

CALVESTON, Texas, Sept. 9.—Evidence in the court martial of Col. Billie Mayfield, accused of attempting to "arrest" G. V. Sanders, editor of the Houston Press, was to go to Governor Hobby today for his approval. The hearing closed late yesterday.

Honest Advertising

THIS is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be. That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained.

Imitations are to be found in some stores and only because of the Castoria that Mr. Fletcher created. But it is not the genuine Castoria that Mr. Fletcher honestly advertised. Honestly placed before the public, and from which he honestly expects to receive his reward.

Genuine Castoria always bears the signature of *Dr. J. C. Fletcher*

Carnival Is Held On Lake Merritt

Oakland's Admission Day celebration today took place on Lake Merritt. Starting at 2 o'clock this afternoon a water carnival comprising races of all kinds for men and women, canoe-tug contests, tub races and surf-board riding, was held under the auspices of the Municipal Department.

Crowds lined the lake on all sides and hundreds of canoes dotted the lake which shimmered in the first golden sunshine after close to a week of cloudy weather.

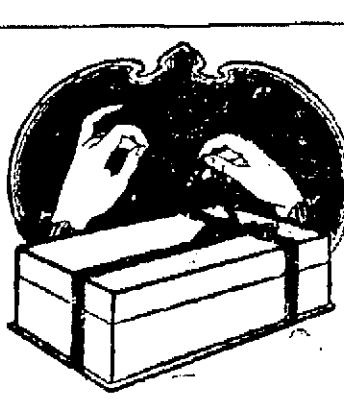

There were large numbers of entries in each of the events. Races by boat crews of the public schools were another feature of the afternoon's program.

With the annual TRIBUNE Merritt Marathon around the lake being run off in the morning the lake proved a holiday magnet for many who stayed through the afternoon to the water carnival.

D'Annunzio Proclaims Fiume Independence

BY ASSOCIATED PRESS.
LEASD WIRE TO TRIBUNE.
RIME, Sept. 9.—Gabriele D'Annunzio today proclaimed Fiume an independent state. D'Annunzio declared he had received private news from Paris which forced him to declare Fiume to be independent today and that he could not wait until September 12 as he had intended.

TWO BOYS HURT.
In a crash between their motorcycle and a gravel truck on the Foot-Hill Boulevard near Hayward today, Carlton Garneal, 725 Ninth street, Alameda, and Harold Murray, 2228 San Jose avenue, Alameda, were slightly injured today.

MOTHER!

"California Syrup of Figs"
Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California"—Advertisement.

Don't Spoil Your Hair By Washing It

When you wash your hair, be careful what you use. Most soaps and shampoos are very injurious, as they dry the scalp and make the hair brittle.

The best thing to use is Mulsified coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else used to wash hair. You can get Mulsified at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Be sure your druggist gives you Mulsified—Advertisement.

Eats Candy but Loses Her Fat

Here's joyful news for every fleshy person who loves good things to eat, especially those who are denying themselves the things they like most because of their desire to keep down their weight or to reduce the fat with which they are already burdened.

There is no further necessity to diet in order to keep your weight down or reduce the fat you have already acquired. The famous Marzola Prescription has been put in tablet form, and is now sold at all drug stores at one dollar for two weeks. To get rid of fat at the rate of three or four pounds a week, just take one of these little tablets after each meal and bedtime until you have reduced your weight to where you want it. No wrinkles, no flabbiness will remain. Use Marzola Prescription Tablets according to directions a few weeks and get results without going through long diets of extreme exercise and starvation diet. Get them at any drug store, or send the price to the Marzola Co., 3500 Broadway, New York, N.Y., and receive them by mail, prepaid, in plain, sealed cover.

Governor Cox Says Hays Is Responsible

GREAT FALLS, Mont., Sept. 9.—Testimony of Dudley S. Blossom before the senate "slush fund" investigating committee is "just another evidence," that National Republican Chairman Will H. Hays should be discharged, Governor James M. Cox, Democratic presidential nominee, declared here today.

The governor also asserted there was much more sensational information to be "dug out" at the Chicago hearing, and said the committee "would not have to go any further" if they would only dig deep enough.

Blossom, who helped to raise the Republican campaign funds in Cleveland, testified yesterday that Governor Cox's charges of a \$400,000 quota from that city were correct.

Cox Slated to Speak In Capital Sept. 17

SACRAMENTO, Sept. 9.—Governor James M. Cox will speak in Sacramento at the city plaza during the noon hour September 17, George Vice, chairman of the Democratic county central committee, announced today. Full plans for entertainment of the Democratic nominee have not been completed, Vice said. The exact hour for the governor's arrival in Sacramento was not announced.

COX ASSERTS U. S. LOSES BY TREATY

HELENA, Mont., Sept. 9.—America today is looked upon as "a nation of quitters," prosperous and self-satisfied, while her associates as well as her enemies among the countries of Europe are starving to death, Governor James M. Cox, Democratic presidential nominee, declared in a speech here today. This feeling of hatred, the governor said, is a direct result of delay in ratifying the treaty and the "senatorial oligarchy" alone is responsible for it. One hundred and nine thousand square miles of arid lands in the West, the governor asserted, could be reclaimed with money made available by disarmament, which he said would follow entry of the United States into the League of Nations.

"I have just noticed that Japan is building a battleship at a cost of \$40,000,000," Governor Cox said. "Until this program is stopped we will soon have reverted to the old game of national military rivalry. It has recently been figured in terms all men can understand that the cost of one battleship would reclaim two million acres of land. Multiply this by forty-eight, the number of states, adopting the plan of one battleship for each state, and you have a staggering total, and it properly applied the answer to the problem of housing in our cities, the answer to the question of increased production of sustenance of human life. The expenditure required in total would reclaim 150,000 square miles of waste. It would build ten permanently paved arteries entirely across the United States at the present high cost of construction. Not only this, but the armament program requires for our fleet at least 100,000 men, a standing army of 200,000, with a reserve force of 400,000 men."

"Think of this in terms of reclamation of arid and waste lands, and think what it would mean to have one million men, exclusive of the thousands required in shipyards and ammunition plants, all turning their activities to the production of necessities of life, rather than to the creation of agencies for the destruction of life."

DEBS IS NOT ADVISING PARTY

BY ASSOCIATED PRESS.
LEADER WIRE TO TRIBUNE.
CHICAGO, Sept. 9.—The big issue in the Socialist campaign this fall is as usual private ownership of the means of production, Otto Branstetter, national secretary and campaign manager of the Socialist party, said here today discussing the Socialist campaign.

The League of Nations issue was viewed by the Socialists as "largely unimportant," he said. The party felt that the league question had been introduced by the old parties merely to cloud the issues and keep the people's attention off domestic issues.

Eugene V. Debs, the Socialist presidential candidate, in prison at Atlanta, Ga., was not advising in the conduct of the campaign to any extent. Use was being made in party literature of what he said to Socialists visiting him.

CHIEF SPEAKER
The chief speaker in the campaign is the vice presidential candidate, Seymour Stearns, of Chicago, reinforced by top speakers or more under the national organization. He has completed a tour of the southwest and on September 1 started for the Pacific coast. After making a round of the central states he plans to go east about October 1 for the balance of the campaign.

Secretary Branstetter said the party expected to be on the top in practically every state where it has previously had a vote of any consequence. It does not expect at this time to get on the ballot in Vermont, Louisiana, New Mexico, South Dakota, Idaho and possibly in several other states in the south and west.

THREE STATES POLL
The three big states this fall from the Socialist standpoint, Branstetter said, are New York, Wisconsin and Oklahoma. He said the party expected to poll a larger vote in these states than ever before.

A large part of the party membership outside of the foreign language federations has come back, the Socialist executive reported, referring to the split last fall which resulted in formation of the Communist party and the Communist Labor party.

No policy of concentration in sections where Socialist sentiment is strong will be carried on by national headquarters, according to the party executive. He said that the national office was making the campaign as general as it could, leaving concentration to the state organizations, which could undoubtedly carry on such a policy in New York, Oklahoma and Wisconsin.

POLITICAL SPOTLIGHT

NEW YORK, Sept. 9.—William G. McAdoo has arranged to make an extensive stumping tour on behalf of Governor Cox. Unusual interest was aroused in political circles here today by a statement issued by the former secretary of the treasury in which he vigorously opposed any modification of the Volstead act.

Folks are finding many reasons for drinking **INSTANT POSTUM** instead of coffee, one of them being economy.

PAULINE FREDERICK, celebrated screen actress, in a dramatic scene from "Madame X," playing at the American theater this week.

LITTLE GIRL SEES WOMAN BURGLAR, MAN ACCOMPLICE

A woman burglar and a man accomplice, thought by the police to be the same pair who were extremely active in their operations several weeks ago, were last night detected as they were leaving the scene of their latest burglary by 8-year-old Virginia Shibley, 631 Vernon street.

The woman burglar, accompanied by the man, was leaving the house of Mrs. Alpheus Clement, 243 Santa Rosa avenue, both of them heavily laden with the property they had stolen.

The Clement family was away from home at the time and returned shortly afterward to find that the house had been searched from top to bottom and many articles of value taken.

The pair of burglars utilized four suitcases they found in the house as receptacles for their plunder. Most of the stolen articles consisted of expensive wearing apparel.

The Shibley child, who was playing on the lawn, noticed the pair

CANNED GOODS SENT BY NEW BARGE LINE

SAN JOSE, Sept. 9.—The first shipment of canned goods out of this valley by water in years will be made Saturday when the new barge line between Alviso and San Francisco will receive a consignment of 8,000 cases, which will be unloaded from motor trucks at Alviso.

It is stated, has made it very profitable to restore south bay freight transportation, which was abandoned many years ago when railroads entered this valley.

Violator of Parole Arrested in North

Charles Kelly, alias Charles Nelson, violator of his parole in Alameda county and wanted on a charge of forging a money order for \$500, has been arrested in Vancouver, B. C., according to word received by Sheriff Barnett. After he has served a sentence in that place he will be brought here. In reports coming from the northern city Kelly is said to have given his name as Russell W. Proctor. Proctor, who was arrested with Kelly at the time of the first offense in 1928, is in Polson, where he is to be paroled on Christmas and is said to be in no way connected with the later charges laid against Kelly.

emerge from the front door of the Clement home and enter an enclosed car which was parked near by. She knew that the Clement family was away, and immediately notified her mother of the episode. When it was learned that the Clement home had been burglarized the child was able to give a good description of the pair.

MECHANIC IS NEEDED

There is a vacancy in the place of a mechanic in Oakland's motor vehicle bureau for which the Federal Civil Service Commission will hold a non-educational examination October 1. Applications are to be had at the office of the local secretary of the Board of Examiners at the Post office.

HOTEL ROBBER IS CAUGHT IN CHASE

SAN FRANCISCO, Sept. 9.—Thrills from a police whistle tooted from a third-story window by a woman, a dash of three robbers into glare of street lamps, cries and then shots from two policemen who ran up and drawing back and scurrying to cover of many passers were the events which shattered the calm at Bush and Kearny streets last night.

The denouement was that one of the robbers, not fleet enough, or afraid of bullets, finally stopped in a lot on Delien street and there the money he carried on the ground. He was arrested, and said he was D. W.

Bank Teller Accused Of Aiding Bunko Men

LOS ANGELES, Sept. 9.—Charged with grand larceny in connection with the series of alleged bunko operations here recently, Otto R. Berry, formerly a teller of the Citizens' Trust and Savings Bank, is under arrest. Four grand jury indictments have been returned against him. It is alleged that he was the "go-between" for the bunk operators.

SHERIFF FINN ASKS FOR AID

SAN FRANCISCO, Sept. 9.—Sheriff Thomas Finn has enlisted the aid of the police of all cities in the State in the search for George "Lefty" Lewis and Ernest Schaefer, trustees, who made a daring escape from the top floor of the county jail last night. Lewis had been convicted of murder and sentenced to life imprisonment, and was awaiting the result of an appeal. His companion is a convicted burglar.

The pair pried apart the bars over the cell window and by means of a rope made from mop strands they worked their way to the sidewalk.

Venetian Club Will Give First Fall Dance

The Venetian club of Alameda county will hold its first fall dance in the ivory ball room of the Hotel Oakland Friday evening, September 17. The Venetians will be host to the members of the San Francisco and Los Angeles chapters. Invitations have been extended to 500.

The arrangements are being handled by Stanley Le Protti, Joe Garin, Ray Dalton and Perry Goodham.

CARMEN AND JOE COFFEY REPEAT IN RETURN MATCHES

JOE DEVINE, LOCAL BOY, HAS MADE FINE RECORD IN CANADIAN LEAGUE; PLAYS FOR TITLE

SIX GREAT BATTLES ARE FURNISHED AT AUDITORIUM RING

Battling Ortega Licks Jack McClellan; Gorman and O'Hara Lose in Return Matches

By BOB SHAND

Had the cash customers and gimme boys been satisfied with six fights last night they would have gone home satisfied, but they stuck around for the Denny-Eagan brawl and ninety per cent of the bunch left with a peevish. The other ten per cent had a grouse. The first six scraps were BATTLES, honest to goodness battles with K. O. wallop flying through the air, even if they didn't connect, but that "main event" was something awful to behold. The judges called it a draw and both of them quite candidly admitted that they so decided because they could not pick the worst of the pair of gladiators. While the judges called it a draw, the fans called it something else—but this is a family newspaper. The story of the "fight" can be told briefly. Denny swung and rushed into a clinch, locked his arms firmly around his little playmate's waist and Mr. Eagan liked Frankie so well that he clamped his arms down and held him there. It was fifty-fifty in the holding department. Occasionally Denny windmilled and he landed a few wild swings, but as a boxing exhibition it was about the poorest thing T. J. Simpson has yet inflicted on his customers.

Charlie Swinhart, manager of Eagan, explained that "nobody could make a showing with Denny and maybe Eagan was over-anxious." Before the match is made is a swell time to think about these things.

Getting down to the regular fights, Battling Ortega gave Jack McClellan a fine landing, taking every round. The latter had his man going in the second when he swung to the chin and repeated to the body, but he laid back instead of stepping in with the mercy shot and the gone saved Jack. One round was the same as another with Ortega forcing his man around the ring and shooting short arm jolts to the head and body. McClellan was fighting back all the time and gave a game exhibition, but even with a big pull in the weights he is not in Ortega's class.

Teddy O'Hara again got his chin in the way of Young Carmen's right hand and lost the decision. Faddy did well enough for a pair of rounds but once Carmen got the range it was all off. O'Hara fought a better fight than he did last time out, but the consensus of ringside opinion last night was that the Carmen boy had the O'Hara goat.

Eddie Gorman put up another game fight against Joe Coffey, but lost the decision. Eddie was with him all the time and he never backed away from the ever-circling Coffey, but Joe was a bit too shifty for him and the decision he received. In the third round the pair stood toe to toe and battled until they were exhausted. It was one of the nicest scraps of the season.

Joe Koriyama of Nagasaki proved a real fighter and gave Roughhouse Cooper an artistic lacing. The Roughhouse went for all about the rough stuff after taking a few well meant wallop in the pantry. After the battle the Togo made the following statement:

Pat Boyle caught a Tartar in Jack Edmondson, a valley middleweight, and Pat got all that was coming to him when the fight was called a draw. It was a willing battle with both lads tearing in and delivering everything they had. Ability to stand punishment, not lack of heavy weight, was the only reason the battle went the limit.

Teddy O'Hara's little brother, who boxes under the name of Jimmy Adams, got a nice licking from Harry Fox. Fox was billed to box Ah Fong, the Marysville Chinese, but a late rush in the laundry caused Ah to remain at the ironing board and no explanation was sent the promoters, but this morning Tommy Simpson found the following note under his door:

Devine's Club Starts Title Series Today

By EDDIE MURPHY.

Hats off to Joe Devine, the Oakland boy who has made good in his first attempt as a baseball manager in organized baseball. Joe, who never served as a ball player in organized baseball except for a couple of games in which he tried out with the Oaks some years ago, was picked last winter as manager of the Calgary club in the Western Canadian League. Nick Williams, former Seal and Portland player, and several other fellows of experience in organized ball, tried to land the job as manager of the Calgary club, but they were all passed up in favor of Joe.

A few years ago Joe left the local sandlots to work in a Northwest shipyard and play semi-pro ball. For a couple of years he served as manager of the Seattle shipyard team at Seattle and the club won the championship of the Northwest Shipyard League. Last winter he was announced that Calgary was to put a club in the Western Canadian League and prominent baseball men of Northwest who remembered how Devine managed the team in the Shipyard League advised him to take the job as manager of the new club in the Western Canadian League. Joe followed the tip and landed the job that many more experienced men than he tried to get.

Picked His Club From Local Bush Leagues

As soon as he was given the position Joe looked over the field of the other clubs in the league and decided that a club of youngsters and a few veterans ought to cop the bunting in the Canadian League. Joe headed right for his home State, California, and he looked over the local bush fields. One by one he signed young ball players that looked good to him and then grabbed the veterans. There was many a ha, ha, in the Northwest when Joe announced his list of players, but those ha, ha's didn't discourage Joe and today his club, which might be called an all-Canadian one, is to open a series with the Regina club that will decide the championship of the Western Canadian League. Joe's club got off to a grand start in the first half of the race, but the breaks commenced going against Joe and his boys and Regina just did win the first half. But the second half was almost a walk-off for Devine's club, as they finished fully eight games in front. Joe might have suffered hard luck in the second half of the race but for Del Howard shipping him Billy Hamilton. Joe wired Del for quick help in the way of an infielder and he shipped him Billy Hamilton.

The result of the championship series with Regina is going to be closely watched by hundreds of baseball fans around the bay, as every player on Devine's club is well known here. The pitchers are Milton Steengrafe, who chucked for the Hallon-Duliers in the TRIBUNE league; Bernie Thollander, one of the several sons that Charley Thollander, former manager of the Fruitvale club, has playing ball; Stubby Mack of St. Mary's College; Lefty Klein, well known in the California bushes, and Sweeney.

Kettle Wirtz, formerly of St. Mary's College, has done most of the catching with Pat Kihlunen alternating between that position and first base. The infielders are Harvey Christensen, Billy Hamilton, Tony Lamarr, Carl Masada and Hal Gregor.

Four Players Are Sold To Major League Clubs

Walter (Seacan) Christensen, formerly of the C. L. Best Tractors, Nelson (Chicken) Hawks and Joe Tobin are the outfielders. After reading over that list of players, do you have to wonder why baseball fans around the bay will be so interested in the outcome of the series between Devine's club and Regina? The Calgary club is almost an all-California team, with an Oakland man as its manager. All but a couple of those players were in action in the TRIBUNE Midwinter League last season.

Walter (Seacan) Christensen and Nelson (Chicken) Hawks have been sold to the New York Yankees. Kettle Wirtz goes to the Boston Braves and Milton Steengrafe will report to the Chicago Cubs. Not only has Joe given the Calgary owners a winning team for their first season, but he has swelled the bank rolls by the sale of players and getting the support of the fans.

Here's hoping that Joe and his Bronks, as they are known, will carry off the championship and that he will come to California this winter again and grab some more kids from the TRIBUNE League.

Robert A. Gardner of Chicago, former champion, was eliminated by another ex-title holder, W. S. Fowkes Jr. of Pittsburgh. The score was 2 and 1.

Two matches today went to extra holes. Charles Evans Jr. of Chicago defeated Reginald M. Lewis of Greenwich, Conn., at the forty-first hole and Edward F. Ellis of Milwaukee won from Oswald Kirby of Englewood, N. J., at the thirty-ninth.

Thomas D. Armore, Scotland, who holds the amateur championship of France, had little trouble with Philip Farrier of Chinnock.

Maxwells Defeated by Poplar Candies

The Poplar Candies defeated the Maxwell team 4 to 1 in a last game. The Poplars had two new players in their lineup and they both showed up well. Robins on second played a good game, besides getting one hit, while Tompa played a good game at short, setting two hits. Plummer followed but three hits and fanned eight. This boy will be heard from in the Winter League providing the Candy boys make the league. Fitzgerald hit two for the Candy boys.

Ping Bodie Is Out Of Game for Season

PITTSBURGH, Sept. 9.—A crowd of more than 25,000 fans witnessed an exhibition game between the New York Yankees and the Pittsburgh Pirates yesterday, the victory going to the visitors, 7 to 3. Both teams worked recruit pitchers, Zinn for Pittsburgh and Ferguson for New York.

Babe Ruth hit a home run in the ninth, driving the ball over the right field fence in the longest hit ever seen at Forbes field.

Bodie, the Yankee centerfielder, in sliding into the home plate, caught his foot on the rubber, fracturing his right ankle.

He was taken to St. John's Hospital and it was not until several hours later that surgeons announced their belief that no bones were broken, but

Tom Cahalen Getting Team for Crockett

CROCKETT, Sept. 9.—Now that Tom Cahalen is back on the job and the fact that the Coast leaguers will soon homeward wend their weary way, this little village by the sea is simply buzzing with baseball dope.

Several major leaguers are due here for the winter, the park is having a new fence, so it looks as if Crockett will have another professional team this year for the Winter League. In the past Crockett has had a fast winter team and those wisecracks who know have the hope that this winter league will be a good one.

That in all likelihood he would be out of the game for the remainder of the season.

Vallejo Fight Club to Stage Show Sept. 23

VALLEJO, Sept. 9.—The management of the Vallejo Athletic Club has secured the Airdome arena for the remainder of the year and will stage a boxing contest at the arena on the night of the 23d inst., according to the present plans. It is expected that several Oakland pugilists will be signed to appear in the bouts. Navy boxers are also being interviewed by the management to swap punches in the four round scraps.

WRESTLING MATCH
VALLEJO, Sept. 9.—George Constan of Sacramento and Chris Spino of Oakland and George Garfield and Gus Lappas will wrestle September 15 at the Airdome arena in York street. The wrestling matches will be held under the auspices of the United War Veterans of Vallejo.

Boxers Will Perform At Legion's Outing

Fighters of the squared ring will entertain fighters in the world war at a boxing tournament which will be a feature of the Ninety-first Division reunion at Idora Park Sunday, September 26.

An elaborate card is being arranged by Willie Ritchie, who was boxing instructor at Camp Lewis and who will referee the bouts. Captain Paul A. Rutton is in charge of the exhibition, which will be staged outdoors.

Well-known fighters of the coast have been signed, including Johnnie McCarthy, "Pickles" Martin, former member of the Ninety-first and overseas veteran; Earl Baird, former naval aviator; "Spud" Murphy, Joe Herrea, Poe Azevedo and Fred Murphy. Another athletic event on the re-

Petaluma to Play Shipbuilders Sunday

VALLEJO, Sept. 9.—Manager Tom Sullivan of the Mare Island Shipbuilders baseball club has received word that the crack Petaluma club will be held on Sunday to meet his colts at Beach park. Manager Sullivan has received word that the Petaluma club has decided not to play here this season as the team is drawing big crowds at home.

However, is not put out very much by the announcement as he is preparing to arrange games with the Richmond Elks and other lower bay nines.

union program will be a tug of war between teams of the 181st and 182d Infantry Brigades. Swimming and diving stunts will also provide thrills.

Kuppenheimer GOOD CLOTHES

Make an Investment in Good Appearance

Of course, we feel the responsibility of every Kuppenheimer suit. And we know what you expect of it: long service—good appearance. You never fail to get it because everything necessary for your satisfaction is provided, fabrics that are true in every texture and pure in every fibre, suits designed to fit and tailored to retain their shape, —that's why your purchase of a Kuppenheimer suit is an investment in good appearance.

Sam McVey Accused Of Stalling in Bout
PHILADELPHIA, Sept. 9.—The fight here last night between Harry McVey of California was stopped in the sixth round, the referee claiming that McVey was stalling. McVey was the aggressor throughout and had the better of every round. The bout was to have gone eight rounds. The men are negro weight fighters.

THURSDAY, SEPTEMBER 3, 1920.

"GOOD ENOUGH FOR OAKLAND."

Mr. William Sproule, president of the Southern Company, has written a letter to Mr. H. L. Hagau, city attorney of Oakland, in reply to the latter's request for information as to whether the railroad company was ready to erect a modern station at Fourteenth and Franklin streets. It is an interesting letter in its way, and accurately reflects the sentiment of the president of the Southern Pacific Railroad in connection with matters related to the public interest in Oakland and the Eastbay section. Mr. Sproule writes to Mr. Hagau:

"This is not a site for a station in the proper sense of the word, because it is used almost wholly by commuters between Oakland and San Francisco and by people simply making the trans-bay trip.

"In other important sections of the United States having a similar traffic a simple shelter is provided to shield the passenger and a small ticket office with ticket window is provided to accommodate the highly transient character of travel served where there is no intention by anyone to remain in the station. Either coming or going, it is in fact a platform from which to take the train or to which to alight from the train."

One meaning only is possible to give to these statements by the president of the Southern Pacific. In his opinion the station accommodations at Fourteenth and Franklin streets are more than the city of Oakland deserves. That is the spirit in which his letter to the city attorney is written.

Mr. Sproule says a simple shelter and platform is all that is usual in other sections of the country for similar railway traffic. This platform and shelter plan is customary for a way station on a suburban or interurban line. But these are the facts regarding the Southern Pacific station at Fourteenth and Franklin streets:

It is not a way station but a terminal of two electric lines—the Eighteenth street line from the Oakland mole and the Oakland line from the Alameda mole. It is also a stop for the line between Alameda and the Southern Pacific Sixteenth street station in Oakland.

The Southern Pacific holds an entire block of property in the heart of Oakland and terminal tracks projecting into another block.

Approximately one-third of this block is covered by dilapidated, ugly, yellow painted buildings.

Part of this property is leased to concessionaires and rented as offices. It returns to the railroad corporation a dividend in the form of rents presumably sufficient to meet the interest charges on a sum of money necessary to construct a new, modern station, and then a profit in addition.

These unsightly, cheaply constructed and also dilapidated buildings, the congested quarters of the crews of the two electric railway lines that terminate at Fourteenth and Franklin, waiting and rest rooms for the necessary accommodation of passengers awaiting the departure of trains are there. For fourteen hours each day cars of each of the two lines arrive every half hour and occupy the terminal switches for from five to ten minutes on each trip.

In addition the trains of one of the lines—the Alameda line—block a street and two sidewalks, one on Franklin and the other on Thirteenth street, for from five to ten minutes twice an hour for fourteen hours of the day and less frequently for five of the night hours, thus discommending street and sidewalk traffic and endangering the lives of pedestrians.

For all these things—the use of a block of land on which are erected cheap but income-bearing buildings, the intrusion into another block at great damage to property values, the inconvenience to which it puts the people of Oakland, and obstruction of new development in the heart of the city, President Sproule suggests that the people of Oakland are receiving too much when they are afflicted with the present unsightly, unclean and unfit railway structures at Fourteenth and Franklin.

The City Attorney should enquire of Mr. Sproule, in the name of the good people of Oakland who have contributed so much to the prosperity of the Southern Pacific, to name any one locality in the United States where the terminal

of two electric railway lines, handling so large a passenger traffic, is so miserable and scandalous a possession of a city of 220,000 people. There is no such locality, nor another community so patient and long suffering under the indifference of a great and rich railroad corporation.

If Mr. Sproule thinks that a mere platform and shelter should suffice for the two-line terminal, let such a platform and shelter be constructed. Then let the valuable block of land which the Southern Pacific owns be transferred to other interests, which are not obstructive, so that the present buildings will be removed and modern business structures rise in their place.

WOOL AND THE TARIFF.

Mr. W. G. Humphreys, an official of a livestock and wool company in Nevada which is now being conducted under the supervision of the federal court, said the other day that the tariff question was the most important issue of the presidential campaign. He referred to the demoralized condition of the wool market in the United States and the vast accumulations of wool in Australia ready to be dumped into the country as soon as government restrictions were removed.

Hon. Julius Kahn, member of Congress from San Francisco, in an interview Wednesday called attention to the fact that no tariff legislation might be expected of Congress during the short session which opens in December. This means that revision of the Underwood tariff schedule will not be reached until the first session of the new Congress in December, 1921, unless a special session is called soon after the presidential inauguration next March.

Both these gentlemen are right. The wool market is demoralized. A large holdover from previous clips is on hand and the new clip is finding few buyers and then only at a greatly reduced price. The woolen mills of New England have either closed down or are operating on a part time, reduced force schedule. There is a depression throughout the world and so long as the woolen manufacturers refuse to make up any stocks except to fill specific orders at their own price, it is apt to become worse. There is no provision of government to protect American producers.

In the face of this situation, the Australian wool surplus, accumulated under the direction of the British war administration, is about to be released—that is, within the next few months—and the American wool grower will be assaulted with cheap imports.

The British director of raw materials recently stated the amount of wool held by the British government to be 2,965,554 bales. The new clip now coming on the markets will be, it is estimated, at least 2,300,000 bales. This means that there is an abundant wool supply so far as Great Britain and Europe are concerned—more than cloth manufacturers can buy or the people can pay for if made into clothing. If this wool is to be disposed of, new markets must be found and the United States is certain to be offered a large supply.

The Australian wool situation is interesting and the American wool grower, textile manufacturer and mill worker would do well to study it. To do so will help them to a better understanding of the urgency in a change in our tariff policy.

Australia's production is about 570,000,000 pounds a year. In 1916-17 the British government entered into an agreement to purchase the entire Australian clip at a price about 55 per cent above the prices in 1913-14. The control of this scheme was placed in the hands of a central wool committee through which individual lots of wool were appraised and immediately became the property of the imperial government. This scheme was extended for the later years of the war and was to cover one full wool year thereafter, thus embracing the 1919-1920 production. A recent referendum upon the proposal to continue the wool control after June 30 failed to carry. The present clip will therefore be sold at public auction.

However, vast quantities of the government-owned wool remained in Australia. This was recently estimated at 1,500,000 bales, of which 500,000 bales are of low grade. If this amount, together with the 500,000 or more bales of unsold Australian wool now in England is thrown on the market, the growers would stand a small chance of securing a remunerative price for their new clip.

With this great surplus of wool and production increasing it is plain that the American wool grower and textile worker must be protected against foreign dumping if American standards of wages and living conditions are not to undergo a downward revision. There is only one equitable way to afford protection, and that is by a tariff differential on imports to offset the higher production costs in this country.

Declared exports from London to the United States during the first seven months of 1920 amounted to \$245,227,055. The leading items among this large foreign purchase were precious stones, \$18,655,733; rubber, \$29,652,031; and furs, \$17,253,570. The precious stones and furs at least were entirely non-essentials. They represented the nation's purchase of luxuries in the British market.

That point in the presidential campaign has been reached where the brickbats are being thrown.

NOTES and COMMENT

Paper garments made in Austria are on display in Washington, with price tags as low as 55 cents a suit. They are mostly curiosities, but they would get in the category of utilities if they would impart a jolt to manufacturers of real clothes which would require them that the high price of wool no longer prevails, making the descent in prices perfectly reasonable.

The bride's first essay at cooking has been variously described by paragonists, but not in the line of the Berkeley instance, where it set the house on fire. It is possible that friend husband liked the viands well done, and that unusual effort was being made to please him in the initial attempt.

The editor of the Tracy Press goes phillandering. "Next week the editor and wife and Dr. A. B. Powers and wife will visit the middle fork of the Tuolumne river, leaving Sunday morning. During the week J. B. Rice, the printer, and Rev. L. L. Wilson will issue the Press, and if the subscribers will cooperate a little by sending in news, or stopping the parson on the street and tell him a bit the paper will come out in its usual manner."

The ballot in November promises to assume more dimensions of a document than a slip bearing names and subjects for the voter to endorse. The initiative and referendum provisions have given everybody a chance to get aboard with his hobby. Voting is becoming an intricate process.

Political parties assessed men holding political jobs with little compunction, but it is to be different with women jobholders. Already there is evidence that they will talk about it and the political sack bearer will have to be more witty. A woman's "holier" over a "voluntary" contribution is likely to be much more persistent and confusing than a man's.

It looks as though banditism is on the decline in Mexico, or else that it has taken on a new phase. Felix Diaz is seeking terms for surrender, either finding the going bad or seeing greater profit in following Villa's example and coming in for a consideration. In any event, greater tranquility will result.

From the Fresno Republican, and possibly in self-justification, "As we have heretofore several times humbly remarked, there is no such thing as a free lunch. But may there not be times when, like other forms of constructive destruction, it is the most truthful attitude?"

The Los Angeles Times has evidently been reminded that the Thanksgiving season approaches. "You wouldn't give a cent for a mope in which flavor having an alcoholic content of one-half of 1 per cent is used? Neither would we."

The Searchlight modifies Redding's expectation. "It is denied that the grand opera coming to Redding Friday night is a big show, but there will be some slight disclosures of shoe tops."

Natural history item from the Nevada News: "There are 1600 varieties of lizards in the world—not including the kind found on hotel lounges."

The Red Bluff News frankly makes the best of it. "Tehama county is going to lose the distinction of furnishing the assemblyman. We have hoped it long enough, and the State will survive the shock."

SPIRIT OF THE STATE PRESS

The law of California allows tax-gatherers must be "wholly written, dated and signed" by the testator. The other land may be written by anybody, but it must be signed by the testator in the presence of two witnesses, who must subscribe their names thereto, and he must declare to them that the document is his last will and testament. It seems like a simple thing to make a will, but usually it is far safer to entrust the job to a lawyer.

When the vote cast last Tuesday was officially canvassed by the Board of Supervisors yesterday it was found that Carleton W. Greene, candidate for re-election to the Assembly, had received the nomination on both the Republican and Democratic tickets. Greene's vote was 1143 in 1916, and on the 1920 ticket Greene received 623 votes in 1920. The Assembly contest was one of the closest and most bitter fought in the election. San Luis Obispo Tribune.

The published notice of the death of Rev. Father Francis Garvey in Ireland was received this week. In a letter dated recently, Rev. Father Garvey was taken suddenly ill with acute pneumonia and died August 8, 1920, at Tuilymore, Mullabawn County, Ireland. It is believed that death came suddenly, for word was received from Father Garvey by friends here after his death was announced. These letters were dated August 2 and stated that he was enjoying the best of health.—San Leandro Reporter.

Is there another large city anywhere quite like San Francisco? Certainly there isn't unless it be Washington, D. C. The supervisors' health committee has voted to let down the bars against the nanny-goat so that every householder may have his milk supply in his own back yard. It may not be an uncommon sight to see Mrs. Groat tethered on the front lawn, surrounded by a hellebore and kerandums about as President Wilson's sheep fed on the White House lawn.—Stockton Record.

70 YEARS OLD TODAY

THE FORUM

They will not, as a rule, be printed unless accompanied by the name of the writer, which, if desired, will be withheld from publication.

LOWER TAX RATE NOT LIKELY

To the Editor of THE TRIBUNE:

In the necessarily condensed newspaper reports of public meetings, one's remarks are susceptible of misconstruction by reason of the incompleteness of the accounts which reach these pages. At the meeting:

I trust, therefore that you will permit me to make clear the position taken by me at the meeting of the Chamber of Commerce held last Thursday evening in the city council chamber. I pointed out at that time that, in my judgment, an appreciable saving could be made by combining the purchases of supplies and materials used by the county and the different municipalities within it, and also by eliminating much of the administrative expense where there is overlapping of the county and municipal governments.

I do not believe, however, that these savings would necessarily be returned to the taxpayer in the form of a lower tax rate. I believe they should go toward permanent improvements, which it has invariably been necessary to cut out of the budget in necessary years, because of the excessive overhead expense of government. It would be better to maintain our present rate and keep up the standard of our public schools, develop our waterfowl, and take care of other vital needs than to reduce our income to the point where it covers only the going expenses of the government and no public betterments.

When we are doing all that a sound judgment indicates should be done to promote our industrial and general growth, it will be good to attempt a reduction in the tax rate. Since there is always an element of conjecture and of skepticism in the consideration of a reduction in public expenditures, I want to emphasize this resolution from my remarks: "If the savings suggested I will certainly have no reference to the matter of rates in the cost of government. A big enough purpose is the establishment of a form of federated government adapted to the handling of our two vital public utilities, water supply and transportation. It has been demonstrated that the people do not want a public utility district. There is only one other way in which these matters can be handled by all of the people and communities served."

It is to be hoped that freeholders will be elected who will realize the importance of working out a charter which will give every community in the county the fullest measure of independence and self-government and at the same time develop the fullest power when united for the common good and to solve our common problems.

Very truly yours,
 A. S. LAVENSON.
 Oakland, Sept. 3, 1920.

MOVIES TO TRACE LOST DOG.
 The movies in Southwest London have been asked to exhibit a slide of "Tyke," described as an "old yellow early Irish terrier, with a wavy tail," belonging to Lady in Chelsea. The slide also bears the appeal, "Please help to find me." Left with a veterinary surgeon while his mistress was in France, "Tyke" escaped to try to find her, and has not been seen since.—London Daily Mail.

CARRYING ON.
 Among the applicants for the post of porter at a large Vienna hotel recently were a major general, three colonels and several lieutenant colonels.—Living Age.

WHAT'S DOING TOMORROW

FLYING ABOVE THE CLOUDS.
 The full majesty of the aerial perspective can only be realized when one is above the clouds and the earth is shut off from view. In flying on an overcast day, when heavy banks of cumulous clouds lie at three thousand feet, it is possible to experience within a minute or two every degree of fog and sunshine. When one is passing into clouds the lower surfaces of which are almost perfectly flat, there is an instantaneous transition from shadow to complete atmospheric opacity, similar in appearance to a dense fog at the ground, but differing somewhat from it in feeling, for the interior of a cloud seems to be drier, the air less saturated with water vapor, than the fogs which are met with at sea or ashore. If their climb is continued a few hundred feet farther the airplane passes again into clear air, but into air now of a clarity and brightness worthy of Mediterranean skies. It is all to be compared with a sea level.—Ohio State Journal.

When one is passing into clouds the lower surfaces of which are almost perfectly flat, there is an instantaneous transition from shadow to complete atmospheric opacity, similar in appearance to a dense fog at the ground, but differing somewhat from it in feeling, for the interior of a cloud seems to be drier, the air less saturated with water vapor, than the fogs which are met with at sea or ashore. If their climb is continued a few hundred feet farther the airplane passes again into clear air, but into air now of a clarity and brightness worthy of Mediterranean skies. It is all to be compared with a sea level.—Ohio State Journal.

FLYING ABOVE THE CLOUDS.
 The full majesty of the aerial perspective can only be realized when one is above the clouds and the earth is shut off from view. In flying on an overcast day, when heavy banks of cumulous clouds lie at three thousand feet, it is possible to experience within a minute or two every degree of fog and sunshine. When one is passing into clouds the lower surfaces of which are almost perfectly flat, there is an instantaneous transition from shadow to complete atmospheric opacity, similar in appearance to a dense fog at the ground, but differing somewhat from it in feeling, for the interior of a cloud seems to be drier, the air less saturated with water vapor, than the fogs which are met with at sea or ashore. BERKELEY 'GOING IT ALONE'; PLANS UTILITY DISTRICT

BERKELEY, Sept. 9.—A review of the water situation as seen by Berkeley officials and an explanation of the call for an election to pass upon a proposal for the formation of a public utility district to include Albany and to be independent of Oakland and Alameda, has been issued by Mayor Louis Bartlett. Mayor Bartlett says that after trying in vain to induce other cities to join with Berkeley toward securing a water supply it is apparent that a smaller district at the north end of the county must be formed if the distributing system is to be secured within the next few years. His statement follows:

WILL GO IT ALONE.
Since that time I have had a number of conferences with the various cities in an endeavor to have them unite with us on the public utility act of 1915 for the formation of a district. The determination of the ultimate source of supply would, of course, have to be decided by a vote of the people in the district after it became organized.

My efforts to bring about this organization have been unsuccessful. The other cities do not wish to co-operate at this time, and the city council has, therefore, called an election for November 13 for the purpose of organizing a public utility district with Albany and the unincorporated territory north of Berkeley to the county line.

MARIN WATER SUPPLY.
Two are capable of supplying this district alone with water for more than a generation. The water shed of Mt. Tamalpais, now partly developed by the Marin municipal water district, can ultimately furnish 30,000,000 gallons a day. The present needs of Marin county are under 5,000,000 gallons a day and Berkeley uses about 4,000,000 gallons. The Calaveras dam of the Spring Valley Water Company, which catches the drainage from the north side of Mt. Hamilton, is also a possibility, and negotiations looking to the utilization of this water have been started with the Spring Valley Water Company and the city of San Francisco, which will probably purchase that watershed in the course of the next few months.

QUESTION OF RATE.
The immediate thing to be done is to organize the water district, then to elect its trustees, who will make a certificate of recommendation.

Business girls and others who are starting first industrial swimming class at Berkeley Y. M. C. A. under direction of city recreation department. Left to right: HELEN STONE, MARIE ANNIE, MRS. W. J. BLYTHE, MRS. OSCAR ROSENFORD, MRS. DONALD R. PHILLIPS, MRS. L. BALASEK, MRS. GERTRUDE L. HALL, FLORENCE SCHLEUTER, MRS. A. H. KOCK-RITZ and MRS. R. L. ROBINSON.

tions concerning the purchase of the distributing system and of a source of water supply, and recommend a bond issue for the purpose of acquiring them. The bond issue requires a two-thirds vote to carry. It is to be noted that this procedure will not involve the slightest increase in our city tax rate. The interest on the bonds to be voted will be paid out of the receipts for water, and the district will be in the water business as soon as it acquires its distributing system, probably within a year. And it is intended that the district will be self-supporting, and the available data indicate that the water rate will be reduced so that a permanent saving may be effected.

QUESTIONS OF RATE.
The immediate thing to be done is to organize the water district, then to elect its trustees, who will make a certificate of recommendation.

SISTERS BATTLE; KNIFE WIELDER HELD IN JAIL

RICHMOND, Sept. 9.—Josephine Malnerich, 20, 1103 Herma avenue, is confined to the city prison in default of \$1000 bail on a charge of assault filed by her sister, Margaret, aged 17 years. A long-standing feud between the girls resulted in an encounter at the family home last evening, and during which, the police say, Josephine slashed her sister several times on the arm with a knife, inflicting gashes which Dr. W. S. Ducas had to be called to close.

CUMMINS IS IMPROVING.
DES MOINES, Iowa, Sept. 9.—The condition of Senator J. J. Cummins was reported so improved today that he expects hereafter to spend several hours a day at his downtown office.

BEE HIVE IS FOUND; U. OF C. GIRLS SILENT!

BERKELEY, Sept. 9.—William Steffen, 1615 Arch street, thought he was "stung" when he carried two hives of bees to a house occupied by co-eds in 2511 Channing way, and discovered that one girl resided in the room. He carried the other into the rear yard of the residence. He enlisted the aid of policeman Javette, who located the other hive at the Sigma Phi Epsilon fraternity house. He reported that some of the fraternity boys had stolen the hive with the intention of playing a joke upon the co-eds.

**Burglars Take Jewels
and Household Goods**
ALAMEDA, Sept. 9.—Burglars entered the home of Mrs. G. E. "Lillian," 1253 Van Ness street, last night, and secured jewelry valued at \$130. Policeman Olsson was detailed to the case.

J. Theus moved his household belongings from Alameda to 2932 Thirty-ninth avenue, Oakland, upon arrival at the new home he discovered that someone had stolen goods from the wagon to the value of \$18.

GIRLS URGED TO LEARN TO SWIM

BERKELEY, Sept. 9.—Learn to swim, girls!

This is the slogan of Gustavus Schneider, superintendent of playgrounds in his campaign for health of office girls. Schneider has started early morning swimming classes at the Y. M. C. A., enabling girls and women employed during the day to be at their desks by 9 o'clock.

"A woman cannot be a business success unless she is physically fit," declares Schneider. "Swimming is one of the best exercises in the world. It is better than all the medicine there is as a health-giver. Let the girl who is confined all day without exercise take a morning plunge and she'll be the more efficient worker and a healthier person."

Miss Portia Wagenet, graduate of the university with the class of 1920, is in charge of these swimming classes. Miss Wagenet has been conducting with success classes for married women at the Berkeley Y. M. C. A.

For the business girls' class there will be a nominal charge to cover expenses. The classes are open to all girls and women anxious to learn swimming. Information concerning the classes may be received from the office of the playground department at the city hall.

OLD TRIANGLE REARS HEAD IN UPTON SHOOTING

Investigators into the shooting of Mrs. Mabel Upton, divorced wife of Dr. E. A. Upton, Oakland dentist, have run into the old triangle after locating Mrs. Samuel Truiston, wife of the man who is now alleged to be the fugitive after the Mill Valley affair.

Mrs. Truiston lives in Mill Valley and is suing for a divorce. She names Mrs. Upton as the object of Truiston's infatuation which led him from home and caused a separation six months ago and more recently a scene on a Sausalito ferry in which Mrs. Truiston met Mrs. Upton and Truiston on the boat, and by her own tale, slapped her husband's face.

SEEK TRUSTON IN S. F.
The search for Truiston goes on, but work on the Marin county hills has been given over for it is practically certain that Truiston crossed the bay immediately after the shooting and Sheriff Keefe of Marin county has enlisted aid of San Francisco policemen.

Mrs. Upton was visited by her divorced husband, Dr. Upton, yesterday afternoon, and by her daughter Fern. Over this meeting a curtain was drawn.

Dr. J. D. Kuser, who cares for the wounded woman at the San Rafael Emergency Hospital, is hopeful now of her recovery although a bullet in her chest has not been extracted, and it has been necessary to administer opiates. At times of lucidity Mrs. Upton has denied undue friendship with Truiston and said he was infatuated with her.

WAS GREATLY EXCITED.
When he shot her, the man who is now missing, had met her to take her to the home of Louis Schloss on the drive near Mill Valley where both were to be guests. She said he was much excited and would not be calmed.

It is the testimony of Mill Valley folk that the fugitive was a drinking man.

From Vallejo came information that Mrs. Upton had visited a brother there only a few days ago to seek advice as to what to do about Truiston whom, the story went, was madly infatuated with her and urged a marriage she strove to avoid.

Dr. Upton has been unable further to trace the telephonic call to his office yesterday purporting to come from the fugitive.

COUPLE FINED \$900.
LOS ANGELES, Sept. 9.—Fines assessed for violation of the federal prohibition law appeared to be rising today. C. L. Olson and his wife were fined \$900 when they pleaded guilty.

Mighty Man Is Sought as Thief of Seven Jacks

ALAMEDA, Sept. 9.—The Alameda police are looking for "Bill." Bill is probably the strongest man in the world, for he is suspected of single-handed carrying away seven single-jacks belonging to the Standard American Dredging Company. The loss of the jacks and the suspicions that Bill did the job were told the police this morning by F. Johnson, watchman for the dredging company.

Bill's other name is not known to the company officials or the police. The latter argue, however, that from the nature of his loot he must be a mighty man.

**SIMPLICITY IN
DRESS TO RULE
THIS FUNCTION**

BERKELEY, Sept. 9.—The first social affair under the new ruling for simplicity of dress of the college campus will be given by the Junior Class on September 15. The students will hold a dance on that evening and only men attired in corduroy trousers will be admitted. The affair is to be for members of the third year class only, and the students plan the evening to be a general "jolly up," so that the class members will be able to meet others in the class.

OLD GRIDIRONER DIES
WASHINGTON, Sept. 9.—Louis Garthe, for 33 years head of the Baltimore American Washington bureau, died here today. He was a former president of the Gridiron club, quonched \$5000.

OTHER BEQUESTS.
Among the larger bequests, Mrs. Constance Healey of Chester, Longland, sister of Dr. Watkinson, the late husband, will receive \$25,000, and the two children of Mrs. Healey will receive \$10,000 each. Another sister of Dr. Watkinson, Mrs. Ada Barclay of Liverpool, England, will receive \$15,000, while her son is better president of the Gridiron club, quonched \$5000.

**MISS STEBBINS
NAMED EXECUTRIX
OF WOMAN'S WILL**

Lucy W. Stebbins, dean of women at the University of California, is named executrix of the will of Mrs. H. H. Stebbins, former Oakland woman who distributed her estate of \$1,000,000 in various small amounts to servants and relatives. Two cousins, William and Louis Pierce are cut off with \$25 while three Chinese boys are given \$1000 each.

Mrs. Watkinson, who was the widow of Dr. J. H. T. Watkinson, one time president of the Peoples Water Company, died at East Baldwin, Me., in August. In the will, relatives, friends and servants were left varying amounts from \$10 up to \$25,000. Miss Stebbins as executrix and Frank J. Hurley, executor, it is stipulated shall receive \$5000 each for their services. The executrix, in addition, is to receive a number of Mrs. Watkinson's diamonds, some other jewelry and furs and lace. Dr. William H. Flint of Monterey was left \$10,000, an insurance tax of \$105,000 was paid to the county of Alameda from the estate which was one of the largest in the bay region.

CLAY AT 14TH AND 15TH STREETS

Put Music in Your Boy's Soul

Every child should grow up laughing, happy and full of life and feeling. What can accomplish this better than music? A child with music in its soul has won half the battle with life; he has the right outlook, the proper spirit, and can float over the sordid parts of life without being affected thereby.

The Sonora Phonograph makes it possible for your child to grow up with the music he should have. It won the highest award for tone quality at the Exposition. It plays all makes of records. The new "Trovatore" Sonora, illustrated, has many improvements and sells for

\$125

\$12.50 down, \$8.75 monthly

Be sure to come in and hear it. The Sonora Phonographs are carried exclusively by Breuner's in Oakland.

W.A.O.M. MACCABEES

Women's Benefit Assn. of Maccabees
ANGONAUT REVIEW, No. 59 meets in Athens hall, Pacific Bldg. Regular meeting, September 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 1920. Catherine J. Smith, C. C. of Phone Fruitvale 2004. District Manager, phone Fruitvale 2334.

OAKLAND REVIEW

No. 14
meets in Pacific Bldg. 10th and Harrison Sts. every Friday, 8 p. m. Sept. 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 1920. Commander, Mrs. Hannah Allison. Secretary, Mrs. Pearl Townsend. 635 Woodland Ave. San Leandro

ACCIDENTALLY KILLED.
COLORADO SPRINGS, Colo.
 Sept. 2.—Ted Irwin, 17, of this city, was instantly killed near here when a revolver dropped out of his pocket while he was returning home on his motorcycle. The gun was discharged and the bullet entering his heart. The body was not found until several hours later.

WORLD'S LARGEST FINANCE

IS REASSURING TO TRADE PROSPECTS

While two more months will be required to elapse before the country can be said to have passed the high point of financial strain, there are now many reassuring conditions. The Federal Reserve bank, for instance, has been able to maintain its position of safety between the present state of the reserve ratio and the limit fixed by law. The Federal Reserve bank stands at 43 per cent at this time, with 38 per cent to get down to the legal limit. The Federal Reserve bank will further credit expansion and even then, in an exigent emergency, it would be possible to suspend reserve requirements for a limited period. But as the reserve banks would have to carry the loss, it is a safe bet that no emergency through loans will be required to handle the situation. Features of the financial situation which are encouraging are such as the decline of commodity prices. With these, less money, or credit, will be required for the purchase of commodities. The decline of cotton prices, for instance, from 30 cents to 25 cents, means that 20,000,000 less will be required to handle that crop. And the same is true with other products. The decline of wheat prices, for instance, from 1.25 to 1.10, means that 10,000,000 less will be required to handle that crop. The decline of sugar prices, for instance, from 15 to 12 cents, means that 5,000,000 less will be required to handle that crop. The decline of other commodities, such as wool, hides, and various other products, means that a total of 50,000,000 less will be required to handle the entire crop. This is a very reassuring condition, as it means that the country will be able to handle its financial situation without the need for a large increase in the money supply.

CHICAGO GRAIN

CHICAGO, Sept. 9.—Wheat ran up slightly in price today owing largely to bullish comment on opening figures, which showed a 10 1/2 cent advance. December 2.40 1/2, 2.41, 2.42, 2.43, 2.44, 2.45, 2.46, 2.47, 2.48, 2.49, 2.50, 2.51, 2.52, 2.53, 2.54, 2.55, 2.56, 2.57, 2.58, 2.59, 2.60, 2.61, 2.62, 2.63, 2.64, 2.65, 2.66, 2.67, 2.68, 2.69, 2.70, INTREPID WOMAN
ROUTS, WOUNDS
BURGLAR IN DUEL

A pistol duel between an intrepid woman and a negro burglar occurred late last night when Mrs. J. Cody, 1216 West Eighth street, discovered the man crawling through the window of her bedroom and in the exchange of shots at close range, Mrs. Cody believes she wounded the intruder.

Mrs. Cody had spent the evening at a downtown theater and returned home late. She was about to go to bed when the window in her room creaked and opened. The woman crouched by the bedside and took a pistol from beneath the pillow.

As she did so, the negro sprang through the window into the room. Mrs. Cody stood up and ordered the intruder to leave at once, pointing her revolver at him.

Instead of leaving, the man approached and said he was not afraid of a gun in the hands of a woman. At the same time he drew a pistol from his coat pocket.

Mrs. Cody fired twice at the bandit. A howl of pain came from the negro and the gun in his hand exploded. The bullets went downward through the floor and the negro leaped out the window.

Neighbors who had heard the shots called the police who arrived at the scene of the shooting within a few minutes. Blood was found splattered about the room, and the police believe that the man is seriously wounded.

Nothing was taken by the burglar but Mrs. Cody thinks he is the same man who entered her house several days ago and stole a large sum in currency and valuable jewelry.

The police are making a search of the hospitals for some trace of the wounded burglar.

U. C. Naturalists to
Call on the Birds

Field trips in the hills back of Oakland and Berkeley will be taken by an extension division class of the University of California which will be organized by Dr. Harold G. Bryant, naturalist and ornithologist. The class will be organized Saturday afternoon at 2 o'clock in the California Development Board rooms in the Ferry Building in San Francisco, according to a university announcement. The first trip will be made Saturday, September 18, when bird life on the university campus and the university natural history museum will be studied. Next Monday evening a class in bird study will be started by Dr. Bryant at 1337 Sutter street, San Francisco.

Women Want Woir's
Sentence Commuted

The Alameda County Women Jurors' Association has forwarded a plea to Governor Stephens on behalf of Roy Wolf, the seventeen-year-old boy condemned to death for murder, urging that the sentence be commuted. Mrs. A. T. Katus is president of the body. The case of the youth was presented at a special meeting this week by Mrs. Allen Allen of Alameda.

The California Federation of Women's Clubs has also appealed to Governor Stephens in the case of young Wolf.

POLICE RUSH,
DISARM, ARREST
BARRICADED MAN

After having been held at bay for more than five hours and after several conferences as to the best manner of procedure, Oakland police last evening battered the doors and windows of the home of John Burrage, 444 Jefferson street, and arrested Burrage, who had threatened to shoot the first man to enter. He is being held on an insanity warrant sworn out by his wife.

According to Mrs. Burrage, Burrage became violent on Tuesday night and threatened to shoot her. All during the night, she says, he stood guard over her with a revolver, declaring that he would shoot the first person who sought to enter the house. In the morning, under pretense of going to work, she was allowed to leave the house. She appeared to the police and declared that she was afraid to return until her husband had been locked up. The police paid a visit to the house shortly after noon yesterday, and the battered doors and windows, and were met by Burrage, who stood ready with his revolver. They returned to the city hall for a conference. While they were gone a TRUSTEE resorted knocked on the front door and had a short conversation with Burrage, who refused to allow the visitor to enter. The reporter then banged on the rear door and locked through several of the windows, noting that the place was thoroughly barred.

Later the police returned with Chief of Police J. Frank Lynch at their head. With axes they battered in doors and lower windows, rushed in on Burrage and disarmed him.

Burrage says he could have shot more than one of the patrolmen but refrained from doing so. He was taken to the receiving hospital.

It was Patrolman E. Macomber who grappled with Burrage and disarmed him, and Chief Lynch who put the handcuffs on the man's wrists. Others in the party were: Night Captain William Kyle, Captain Noble Wallman, Patrolman Edward Strickland and Patrolman Charles Jorgensen.

U. S. Experts Will
Inspect State Roads

A full and comprehensive report of the original costs, the cost of upkeep and a probable answer to the question of whether they will stand up under the constantly increasing motor vehicle traffic, will come out of a study of the state highways and a limited number of county roads of the state which is now being conducted by the bureau of public roads of the United States department of agriculture.

It is an expensive one and will embrace every foot of the state highways. It will furnish valuable data for use by other states who are just beginning the construction of a great highway system like California's as well as giving an indication of the exact condition of the roads throughout the state and what will be the probable cost of good roads to the people in the years to come.

Body Identified as
Launch Wreck Victim

ALAMEDA, Sept. 9.—The dismembered body found floating in the bay at the foot of Fourth street yesterday morning, has been identified as that of David Newman, Newman was employed by the Crowley Launch and Towboat Company of San Francisco and was one of the men killed when the torpedo boat destroyer, Kennedy, backed into a launch at the Union Iron Works, August 25.

Electrical
Sterilization

The drinking of bottled Soda Water is highly recommended by the

OAKLAND
PIONEER SODA
WATER CO.

for seven reasons:

1. Electrically sterilized pure water is used by this firm.
2. Electrical sterilization destroys all dangerous animal and vegetable matter.
3. The syrups are made and used fresh every day and handled in a manner so that no insects can come in contact with them (nor to become stagnant or sour.)
4. The bottles are thoroughly sterilized by means of a latest improved sanitary washing machine.
5. The bottles are absolutely clean.
6. Bottles and corks are conveyed by an automatic device.
7. Strictly sanitary implements are used throughout the factory.

Speeders to Jail; Says Edgar;
Lock Up Cars, Claims Pulcifer

Are "jail terms" for automobiles of speeders legal?

Yes, declares Judge Harry Pulcifer of Oakland, who while sitting in Berkeley during the absence of Judge Robert Edgar on his vacation "locked up" the automobiles of several score university students for speeding periods.

Returning yesterday from a deer hunt in the mountains, Judge Edgar took issue with the Oakland justice and reverted to his old custom of sending speeders to jail.

EDGAR REVERSES ACTION

"A judge has no more right to lock up an automobile than he has to order the clothing of a defendant removed," declared Judge Edgar in responding William C. Tait, 2701 High street, Oakland, to jail for two days for traveling

at a speed of thirty-eight miles an hour.

Judge Pulcifer defends his method of procedure. Jail sentences, he declares, are not punishment for speeders and are treated as a joke by the persons thus sentenced. "Deprivation of their automobiles," he holds forth as the best form of punishment.

PULCIFER DEFENDS METHOD

As to the legality of his method of procedure Judge Pulcifer says: "Let any of the students whose cars have been locked up try and test their sentence and they'll find their rash action in the county jail." In all of the cases where cars have been ordered "locked up" by the judge sentence has been postponed from periods ranging from two weeks to thirty days to determine the good behavior of the offenders.

COLE APPOINTS
COMMITTEEMEN

Appointment of committees in the campaign for city and county consolidation was made today by Walter D. Cole, president of the Alameda County charter league. They are the executive committee and the committee to nominate freeholders.

Cole, as president of the league, will be chairman of the executive committee, which is composed as follows:

Oakland—J. H. Spiro, Mrs. A. E. Carter, Charles E. Snook, R. C. Durant, Sam Donohue.

Berkeley—F. H. Thatcher, Mrs. Ida Blockman, Charles H. Spear, Mrs. Fred A. Athern, Ralph P. Merritt.

Alameda—W. H. L. Hynes, A. G. Latham, Walter G. Tibbitts.

At Large—George Beck, of Livermore.

Louis Bartlett, mayor of Berkeley, has been named chairman of the committee to nominate freeholders, the personnel of which is as follows:

Oakland—Mrs. Frank G. Law, George C. Farlee, A. S. Lavenson, E. S. Harley.

Berkeley—David P. Barrows, Louis Bartlett, E. W. Williams.

Alameda—E. K. Taylor, W. J. Lloyd.

Livermore—G. S. Fitzgerald.

MAINE LOSES
34TH PLACE TO
OREGON STATE

WASHINGTON, Sept. 9.—Maine, thirty-fourth state in population ten years ago, has been outgrown in the last decade by Oregon, which was thirty-fifth. Maine's population announced today by the census bureau is 187,996, an increase of 25,623, or 3.5 per cent over 1910. The growth of the state was the smallest since the decade ending 1900. Oregon, which had almost 70,000 people less than Maine in 1910, had an increase of 110,029 during the ten years.

POWERS' BAIL
RAISED; IS HELD

His bail raised from \$500 to \$2000 by Judge John H. Paul, John H. Powers, boilermaker of 722 Broadway, Oakland, is held in the county jail on a charge of failing to render custody to an injured man as a result of an accident near the county line on Tuesday evening in which Lawrence Galvin, 46 years old, of 1101 Tenth street, Berkeley, was seriously hurt.

Galvin, who is at Roosevelt Hospital suffering from a broken right arm, crushed left leg and possible internal injuries, swore to the complaint yesterday against Powers.

Galvin declared he was standing in a safety zone at the time of the accident. He was picked up by passing motorists, after Powers had sped away, and taken to Roosevelt Hospital. Powers was taken into custody in Berkeley by Patrolman Henry Villa as a result of the damaged condition of his radiator and was later turned over to the Albany authorities. He will be arraigned at 10 o'clock Friday morning.

Powers had a party of friends in his car with him, who, say the police, had apparently been drinking. The men gave their names as Chas. M. Schultz, 1986 Forty-first street, Oakland; H. J. Keen, 4227 Howe street, Oakland; H. F. Kern, 613 Twenty-seventh street, Oakland; Clyde Brown, 1318 Filbert street, Oakland; and E. F. Fleming, 1258 Seventy-third avenue, Elmhurst.

Telfer Case May Go
Over Till Next Week

SACRAMENTO, Sept. 9.—Robert Telfer, state printer, said yesterday he would not be ready to proceed Friday with the hearing of charges against him by employees of the printing department. The hearing, which will be before the state board of control, probably will not open until next week, it was said. Misconduct by employees of a "bill room" during the 1919 session of the legislature was alleged in charges signed by Carleton Johnson, head of the proof room. Telfer had knowledge of the alleged misconduct, the charges said.

LINERS' FIREMEN
IN LIVELY FIGHT
WITH TAHITIANS

A tale of an island battle in which firemen from the British ship Marama, mixed with native police and in which clubs and revolvers were the weapons of attack and defense was brought in today by the big Union liner docked after a run from Papeete, Tahiti.

Passengers on the vessel say that they were witnesses to one of the most furious island mix-ups known in the South Seas, and that out of the affair has come a protest from the British consul to the French government. Out of the incident, which is said to be the culmination of a long period of ill-feeling, an investigation is expected to follow.

Crevas of vessels docking at Papeete and the native policemen have been at outs for some time, according to Captain B. M. Aldwell of the Marama in reporting the affair. It was when a number of firemen, who were given shore leave, met with the police, who were led by French officers, that the fight started.

The firemen say that the natives sneered and abused them while the natives say that the sailors jostled them. With the hundred passengers of the Marama looking on the two factions closed in battle. Revolvers were drawn and clubs were swung, and when it was over six of the firemen were placed under arrest.

According to Captain Aldwell the matter will be settled by the time the Marama touches at Papeete again, and at that time it is expected that the two firemen who are still in the island jail will be released.

Youth Is Arrested
As Jewel Absconder

LOS ANGELES, Sept. 9.—William P. Riddle, 26, said by the police to be wanted by New York city authorities to answer a charge of absconding with jewels valued at \$15,000, entrusted to him by a woman guest at a hotel there, was arrested here last night by Federal officers on a charge of having violated the Mann act. He was married here nine days ago to a Los Angeles girl. The arrest followed accusations by a woman who was said to have stated that Riddle brought her here from the East.

Few Dentists Have the
Organization

to give your teeth the expert attention they require here: few have the money to install such up-to-date appliances; few spend so much on their equipment. Dr. Barber never uses anesthetics that cause unconsciousness, and yet all who go to whether filling or extraction, is done wholly without pain.
